

“Our business doesn’t have a DRUG problem”

We just have attendance problems . . .

And work performance problems . . .

And hiring and retention problems . .

And Workers Comp problems . . .

Oh . . .

Maybe we DO have a drug problem.

Nearly three fourths of all illegal drug users and heavy or binge drinkers are employed. Over 60% of Oregon employers rate substance abuse as a “great concern.”

Yet only 13% of Oregon businesses are drugfree workplaces.

What’s your barrier?

- *My company’s too small to have a drug problem*
- *I’ve seen drug activity but I don’t know where to begin*
- *It’d cost too much to begin drug testing*
- *I’d lose key employees if I began drug testing.*

Join other Douglas County businesses to discuss how to overcome these barriers and how all businesses benefit from a strong and active drugfree workplace program. All attendees will receive a free Drugfree Workplace Business Toolkit.
